

EMBASSY OF THE  
UNITED STATES OF AMERICA  
Belgrade, Yugoslavia

June 20, 1985

Lieutenant Colonel Arthur O. Anderson, MC  
Chief  
Mucosal Immunology Division  
U.S. Army Medical Research Institute  
of Infectious Diseases  
Fort Detrick, Maryland 21701-5012

Dear Lieutenant Colonel Anderson:

During his recent visit here, General Rapmund told me that you were the host for Major Ivanko Bojic during his training in the United States. I know that was a time-consuming and challenging responsibility. Let me assure you that your work has really paid off. Your full support and dedication have had a positive impact on relations between the armed forces of the United States and Yugoslavia. Medical training for officers such as Major Bojic is an important part of this embassy's program. The professional and personal relationship you developed with this officer have resulted in a great deal of progress toward our goals.

I wish to take this opportunity to thank you most sincerely for your efforts as a host. The work is important and its results most fruitful.

Sincerely,

A handwritten signature in cursive script that reads "David Anderson".

David Anderson  
Ambassador

DEPARTMENT OF THE ARMY  
US ARMY MEDICAL RESEARCH AND DEVELOPMENT COMMAND  
FORT DETRICK, FREDERICK, MD 21701

SUBJECT: Letter of Commendation

THRU: Commander  
U. S. Army Medical Research Institute  
of Infectious Diseases  
Fort Detrick, Frederick, MD 21701-5011

TO: Lieutenant Colonel Arthur O. Anderson, MC  
Chief  
Mucosal Immunology Division  
U. S. Army Medical Research Institute  
of Infectious Diseases  
Fort Detrick, Frederick, MD 21701-5011

1. I am very pleased to forward to you a letter of commendation from the United States Ambassador to Yugoslavia, The Honorable David Anderson, dated June 20, 1985.
2. Your support of the training of Major Ivanko Bojic at the U. S. Army Medical Research Institute of Infectious Diseases has made the International Military Education and Training Program of the Department of Defense for Yugoslavia an outstanding success. Ambassador Anderson told me that the Program could have failed were it not for the strong participation of medical research. You have made, therefore, a major contribution to the strengthening of military cooperation between Yugoslavia and the United States.
3. My thanks to you and to your family for this very important achievement.
4. A copy of this letter will be placed in your official personnel file.

Enclosure

GARRISON RAPMUND  
Major General, MC  
Commanding

SUBJECT: Letter of Commendation

Commander, US Army Medical Research Institute of Infectious Diseases, Fort  
Detrick, MD 21701-5011 31 July 1985

THRU: COL Edward H. Stephenson, Chief, Airborne Diseases Division, US Army Medical  
Research Institute of Infectious diseases, Fort Detrick, MD 21701-5011

TO: LTC Arthur O. Anderson, Airborne Disease Division, US Army Medical Research  
Institute of Infectious Diseases, Fort Detrick, MD 21701-5011

1. It is a pleasure to note and forward the highly complimentary remarks contained in the attached letters from The Honorable David Anderson, the United States Ambassador to Yugoslavia and Major General Garrison Rapmund, Commanding General, U. S. Army Medical Research and Development Command. It is always gratifying to receive official notification of the outstanding contributions of our personnel.
2. I am fully aware of the demands placed on your time by the additional training requirements. However, it is clear from the attached correspondence that your personal efforts have had an important positive impact on military cooperation between Yugoslavia and the United States.
3. I thank you and your staff for a job well done.
4. A copy of this correspondence will be placed in your official personnel file.

  
DAVID L. HUXSOLL  
Colonel, VC
